

Different Types of Vehicle Wraps

Full Wraps

Full wraps offer complete coverage, covering the entire vehicle. However, on larger vehicles (i.e. high roof vans and fleet trucks) the roofs are not generally wrapped for they are not easily seen. With full wraps, every aspect of the car can be covered including windows with perforated vinyl, the bumpers and other surfaces.

Partial Wraps

Ranging from $\frac{1}{4}$ of a wrap to $\frac{3}{4}$ of a wrap, partial wraps are a mixture between full wraps and decals for they only cover important parts of the vehicle.

Die-cut Graphics & Lettering

This combo selection is great for branding your business with colorful graphics and lettering. A graphic can be your logo or image of something pertaining to your industry.

Vehicle Lettering

Vinyl letters are made from heavy duty adhesive vinyl and come in a variety of colors. This is a great option if you only want to have written information like your name, contact information and what your business does.
